Two Firemen Hurt.

Yesterday merning, about 9 o'clock, fire was discovered in the engine roomlor Boyd's packing house. A telephone alarm was sent to Engine Company No. 3, and Chief Galligan sounded the alarm from box 15. When the department reached the scene, the flames had been extinguished by the hose company of the packing house. The damages were only nominal. On the way to the fire Captain Vandervort and Driver Gus Wuliams, of eart No. 4, met with an accident at the corner of Tenth and Pierce streets. In turning the corner, a wagon stood in the way. The hose cart was compelled to go around it, and as it did it swung rapidly on the ley street until it struck an obstacle which sprung one of the iron wheels and threw both the men mentioned to the ground. Vandervort was badly injured on the right knee and left instep, and was taken to beli's drug store, where his injuries were attended to. Williams was injured on the wrist and again mounted the seat, when the wheel broke down, and he himself was compelled to do the same thing. These make live liremen who have been injured thus far this year and some of the men are speculating as to who of cart No. 4, met with an accident at the corand some of the men are speculating as to who

K. OF P. GRAND LODGE.

Steps Taken to Make its Meeting a Great Occasion.

The grand lodge of the Knights of Pythias of this state will be held in this city in October next, at which time it is contemplated having a grand series of entertainments for visiting knights and others from abroad. The first step in this direction is that just taken by Nebraska No. 1, which has passed a resolution asking the other Omaha lodges and uniform divisions to concur with it in electing one representative to form the ex-ecutive committee which shall prepare and carry out a programme of the kind men-tioned. The resolution provides that each lodge and division be represented on this executive board by one person, and the board to have power to select sub committees from the lodges and divisions to assist them in carrying out the programme to be arranged. It also provides that any vacancies which may occur on any of the committees, be filled by election from those lodges or divi-sions in which the vacancy may occur.

BEATING A HOTEL. The Novel Scheme Worked by a

Variety Man. "There are plenty of ways of beating a hotel," said a traveling man to a reporter the other night, in the Millard rotunda, "but the most ingenious scheme I ever heard of was practiced by a friend of mine, a variety actor, in Minneapolis a few days ago. He had been on a spree for two or three weeks, and was finally discharged by the manager of his company in Milwaukee. He wanted to go to Minneapolis, and had just money enough to get there. What to do after he reached the Minnesota metropolis he did not know, for he had barely enough money to pay his traveling expenses. He pondered long over the matter. Finally a bright idea struck him. the matter. Finally a bright idea struck him. He sat down and wrote a letter to the proprietor of a well-known hotel on Nicollet avenue, penning the epistle on the letter-head of a Milwaukee detective agent. The letter which was ostensibly signed the by chief of the agency informed the hotel proprietor that a well-known criminal, whom the Milwaukee detectives desired to shadow closely was expected to arrive in Minneapolis and would probably stor at the hotel on Nicollet avenue. The letter stated that it was necessary to observe the strictest secrecy concernsary to observe the strictest secreey concern-

deference, so as not to cause him to suspect that he was under surveillance. His board bill, the letter stated, would be paid by the detectives as soon as evidence enough was procured to secure his arrest. The description which was given in the letter of course was that of my friend, the variety actor. "It is hardly necessary to state that the plan worked to perfection. The 'criminal' landed in Minneapolis, lived on the fat of the land for three weeks, and one night quietly packed up his grip and stole away."

DIVINE WORSHIP.

Why It Needs Especial Police Protection.

It would appear from complaints made within the last two or three days at police headquarters that the worship of God, as conducted in Omaha, needed especial police pro-

One complaint was made to Marshal Cummings by a high official of the salvation army, which is just at present bombarding the local ramparts of sin. He states that he in common with other soldiers of the army, feels the need of protection from insults, indignities and positive injuries, which are suffered at the hands of the unrighteous rabble. The indignities are practiced not only on the streets when the salvation forces are making their evening round-up, but at their headquarters on Jackson street as

Well.

The army will probably be given the protection required in the shape of a burly policeman with a club.

The Swedish Baptist church on Douglas street has also invoked police protection against rowdies who make a practice of breaking up its Sunday night meetings.

Local Laconics.

Fire Chief Galligan-"The work of putting in boxes for the new police and patrol system will be commenced next month. There are to be twenty of these boxes and their location, I suppose, will be decided by the police. They ought to be distributed where they will do the most good."

A railroad man—"The real estate craze

which has swooped down upon this city is playing sad havoe with business. Everybody is taiking real estate-everything else is of secondary consideration. No matter where I go, in my efforts to secure freight shipments, I find everyone discussing real estate and mable or unwilling to pay any attention to the requests I may make. When is this thing going to let up?"

E. Wall-"Have you noticed the amount of time, attention and money which sporting matters are now claiming in Omaha? For some time we have had fights, glove contests, cocking mains, wrestling, bleycling, and are soon to have the great O'Leary in a heel-and-toe walk. I am not sorry for it, however. These things make a town lively, and where people are lively all kinds of business are more or less liable to be sensibly affected."

A New Firm.

One of the latest real estate firms in the field is that of Smith & Welch, who have opened an office on Fourteenth street, in the rear of the Burlington ticket office. They have a large list of the choicest residence and business property. Some of the very best bargains in the way of low-priced and valuable property in Council Bluffs are listed with them. The firm starts out with the determination to do a fair and legitimate business, nation to do a fair and legitimate business, and is being fully equipped for so doing.

Neither of the gentlemen composing this firm needs an introduction to the public of Omaha. Air, Franklin S. Smith has been for many years town lot clerk in the land department of the Union Pachie, where he achieved an enviable reputation for keen foresight and business sargeity. Mr. Welch has been employed in the local government service and his talents and business experience will equip him for his new line of work. The tram is a strong one, and will doubtless do a good business.

Hanseom Park M. E. Church. The ladies of the Hanscom Park M. E. thurch, which is now almost completed, have

lecided to give a public supper on next

Thursday evening, which will be held in the new building on the corner of Georgia and Woolworth avenues. There will be a sociable in connection with the spread, which will last from 6 until 9 o'clock.

Grand Pic Nic.
To the ladies and gentlemen of Omaha: This will be a grand baking exhibition with Prof. Horsford's Baking Powder, commencing Wednesday, February 9, and continuing Thursday and Friday. February 10 and 11, at the store of Wm. Fleming & Co., Douglas street. Come ladies, and bring your friends and see how easy it is to make fine cakes and biscuits without the use of shortening, with the best Baking Powder in the world. Everything will be free and this will be a big time. The bakings will be contin-ued all this month in all of the first class stores in the city. Saturday we com-mence in the first class Chicago Grocery Store of Warren F. Brown, on St. Mary's ave., and continue for three days. We are the oldest and largest manufacturers of Bread Preparations in the world.
These exhibitions will be free. Watch
the locals for dates in the other stores.

Irrigating Ditches. A letter received at army headquarters from General Hatch, the commander of Fort Du Chesne, contains much interesting information concerning the new post. General Hatch states that he proposes to establish a system of irrigation ditches about the fort so as to make the land arable. The soil in this vicinity is very well suited for this sort of thing, and General Hatch thinks he

INJUSTICE CORRECTED.

Convincing Verification of Widecast Public Statements.

To the Readers of the BEE: In common with many publishers and editors, we have ments which we have seen in our columns as merely adroit advertising.

Consequently we feel justified in taking the liberty of printing a few points from a private letter recently received from one of our largest patrons, as a sort of confession of

faith to our readers. We quote:
"We have convinced ourselves that by tell-"We have convinced ourselves that by telling what we know to be true, we have produced at last a permanent conviction in the public mind. Seven years ago we stated what the national disease of this country was, and that it was rapidly increasing. Three years ago we stated that a marked check had been given it.

"The statistics of one of the largest life insurance companies of this country shows that in ISSI and ISSI, the mortality from kidney disorders did not increase over the pre-

that in 1883 and 1884, the mortality from kidney disorders did not increase over the previous years; other companies stated the same thing. It is not presumptuous for us to claim credit for checking these ravages.

"Seven years ago we stated that the condition of the kidneys was the key to the condition of health; within the past live years all careful life insurance companies have conceded the truth of this statement, for, whereas ten years ago, chemical analysis to determine the condition of the kidneys was not required, to-day millions of delians in risks are refused, because the chemical examination discovers unsuspected diseases of the kiddiscovers unsuspected diseases of the kid-

neys, "Seven years ago we stated that the rayseven years ago we stated that the rav-ages of bright's disease were insignificant compared with other unsuspected disorders of the kidneys of many misleading names; that ninty-three per cent, of human ail-ments are attributable to deranged kidneys, which fills the blood with uric acid, or kidney poison, which causes these many fatal dis-

poison, which causes these many fatal dis-cases.

"The urle acid, or kidney poison, is the real cause of the majority of cases of paral-ysis, appoplexy, heart disease, convulsions, pneumonia, consumption and insanity; over half the victims of consumption are first the victims of diseased kidneys,

"When the recent death of an honored ex-official of the United States was announced, his physicians said that although he was suf-fering from Bright's Disease, that was not the cause of death. He was not frank enough

cause of death. He was not frank enough to admit that the apoplexy which overtook him in his bed, was the fatal effect of the kidney polson in the blood, which had eaten kidney poison in the blood, which had eaten away the substance of the arteries and brain; nor was Lozan's physicians honest enough to state that his fatal rheumatism was caused by kidney acid in the blood.

"If the doctors would state in official reports the original cause of death, the people of this country would be alarmed, yea, nearly praine synchem, at the fearful mortality from kidney disorders."

The writers of the above letter give these facts to the public simply to justify the leading.

The writers of the above letter give these facts to the public simply to justify the claims that they have made, that "if the kidneys and liver are kept in a healthy condition by the use of Warner's safe cure, which hundreds of thousands have proved to be a specific, when all other remedies failed, and that has received the endorsement of the highest medical talent in Europe, Australia and America, many a life would be prolonged and the happiness of the people preserved. It is successful with so many different diseases because it, and it along, can remove the uric acid from the blood through the kidneys."

Our readers are familiar with the prepara-Commendation thereof has often appeared in our columns.

We believe it to be one of the best, if not the best ever manufactured. We know

the proprietors are men of character and influence.

We are certain they have awakened a wide

with a public mind concernspread interest in the public mind concern-ing the importance of the kidneys. We be-lieve with them that they are the key to health, and that for their restoration from disease and maintenance in health there is nothing equal to this great remedy.

The proprietors say they "do not glory in this universal prevalence of disease, but having started out with the purpose of spreading the merits of Warner's safe cure before the world because it cured our senior proprietor who was given up by doctors as incurable,

who was given up by doctors as incurable, we feel it our duty to state the facts and leave the public to its own inference. We point to our claims and to their public and universal verification with pride and if the public does not believe what we say, we tell them to ask their friends and neighbors, when they think their friends and neighbors what they think about our preparation."

As stated above, we most cordially com-mend the perusal of this correspondence by our readers, believing that in so doing, we are fulfilling a simple public obligation.
